Counterbalance Cranes

Product code: SKCTC

These mobile counterbalance cranes, ideal for workshops, give the operator complete freedom of movement at the front lifting area. The 3-position telescopic jib provides versatility and the swivel polyurethane castors allow for easy on-the-spot turning, useful when floor space is tight. Made from hollow steel box section for strength and lightness these cranes are fully tested to 25% overload and certified. Fitted with a relief valve to prevent overloading they come with a 12 month guarantee. Counterweights optional.

Load capacity	152kg, 254kg, 508kg, 750kg, 1000Kg, 2000kg
Include counterbalance weights?	Yes, No
