Steerable Machinery Skate 12tonne

Product code: SKSTSK12

A steerable skate for moving heavy machinery and rated for equipment loads of up to 12tonne (12,000kg).

- Helps to protect the floor via the large diameter rollers
- Load slippage risk is reduced via the rubber non-slip pad
- Easy to steer around tight bends due to the high quality thrust bearing under the platform
- Easier to manoeuvre due to the one metre draw bar
- Combine with the 12tonne adjustable skate to double the total load rating to 24tonne
- Other load ratings available. Also compatible with 6 & 24tonne adjustable skates.

Please note: The finish colour supplied may differ from that illustrated.

Load capacity	12000Kg
Height	115mm
Width	640mm
Length	670mm
Weight	66Kg
Roller size Diameter x W	83mm x 85mm
Load plate area length	390mm
Load plate area width	215mm
