Stepped Picking Trolley, 4 Steps

Product code: SKSOPT03

This picking trolley boasts 4 steps allowing to reach higher levels of shelving or racking systems. The steps are attached to one side of the trolley enabling easy access. There is a platorm placed in front of the steps giving you the space needed for east storage of products, without carrying them down the steps first. There are three platforms on this model, giving a lot of space for you to utilise when picking up orders.
